As a customer...

of Stadtwerke Ramstein-Miesenbach GmbH, you have the opportunity to secure the best plan for your new fiber optic connection and to be among the first to set up the fiber optic connection.

In your place of residence, the municipal utilities are already planning in cooperation with the local community for a possible fiber optic connection (FTTH) to every house.

Why a pre-contract?

Stadtwerke Ramstein-Miesenbach GmbH has to make considerable investments to develop it. This investment must be matched by a minimum number of potential customers.

For this reason, it is necessary to conclude a preliminary contract with every potential house or apartment owner who is interested.

With your signature, the conclusion establishes a liability between you and Stadtwerke Ramstein-Miesenbach.

What is needed?

- Fill out the fields below.
- Select the desired plan from the attached plan overview (this selection can be changed up to the beginning of the contract)
- Fill out and sign the preliminary contract and hand it over to the public utility company or Email it to Breitband23@Stadtwerke-Ramstein.de or register online at: www.Stadtwerke-Ramstein.de

The actual contract is concluded when your house connection is complete and you have concluded the contract with us. This is followed by termination of the previous connection and porting of the previous telephone number. Of course, there is also the possibility to revoke the preliminary contract.

Pre-Contract Return by March 31, 2022

Yes, I am signing a preliminary contract for a fiber optic connection and would like to be informed as soon as the house connection is laid in my community and street and I can then sign the contract.
If I am not the owner, I will obtain permission for the connection from them.

General terms and conditions notice PRECONTRACT fiber optic connection

The general terms and conditions (GTC), the special terms and conditions for the Internet as well as the service descriptions and price lists in the current version for the product range of Stadtwerke Ramstein-Miesenbach GmbH.

Hereby we point out that the expansion at the connection address depends on whether sufficient customer contracts with these products are concluded for the designated area.

Submission of the order form is merely an application. The order is accepted by the order confirmation from Stadtwerke Ramstein-Miesenbach GmbH.

Should the responsible company, following an order confirmation, not carry out the installation for technical reasons or not reach the minimum number of potential customers, Stadtwerke Ramstein-Miesenbach GmbH is exempt from providing the service.
